

COVID-19 Health & Safety Policies at AMRoC

Updated July 2021

Until further notice:

- **AMRoC is open to guests on a limited basis and appointments are recommended.**
- **Face coverings are required for entry** and safe social distancing of 6 feet must be maintained by Fab Lab occupants for removal of masks.
- Programs and meetings are limited to a **maximum of 20 people unless other arrangements have been approved.**
- **All guests must sanitize their hands upon arrival.**
- **Group/meet up organizers must clean areas used after a meeting**, including tables, chairs, tools, electronics, or other equipment used, with sanitizing cleaners we'll supply.
- **In house tools, computers and equipment used during meetings or events will be placed in designated areas or containers after use**, for proper disinfection prior to next use.
- **Visitors over the age of 60 or anyone with pre-existing health conditions is advised not to visit AMRoC**, for their own health and safety.
- **Anyone showing signs of illness is asked not to visit and will be asked to leave AMRoC if cold or flu symptoms are exhibited**, for everyone else's health and safety.
- **Seating at tables and work benches is separated** – please do not rearrange seating without permission.

What You Can Do

Ultimately, it is up to individuals to stay intelligently informed, practice safe hygiene and take precautions urged by the CDC and local health departments to prevent the spread of illnesses like the flu and COVID-19. Please use common sense and show respect for others. We're not concerned about YOU getting COVID-19. It's about not inadvertently infecting others who may suffer serious health consequences as a result.

- Sanitize your hands upon entering the Fab Lab and when leaving,
- Wash hands regularly as directed, while on site, and
- Do Not visit if you're not feeling well.
